**INDIVIDUALLY,
WE ARE ONE DROP.
TOGETHER, WE ARE AN OCEAN.**

Greetings! I am glad to introduce to you, our JayconGroup. Since I was a child, I had a fascination with building things, which translated to my profession. Turning a seemingly dull space into a vibrant and uplifting one makes me the happiest. I started landscape designing fifteen years ago and was successfully able to transform various spaces including several offices and residential buildings. Over the years, I noticed that what people needed, was not just a visually captivating space, but a fully functional, practical solution for their living needs.

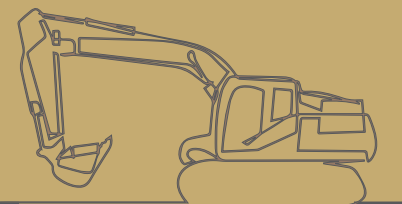

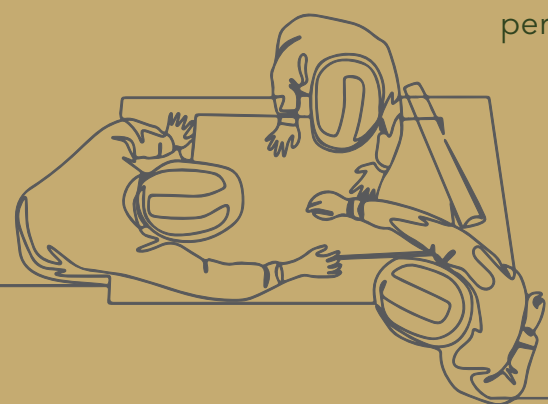

That very need has been the genesis of Jaycon Group Infra. I am lucky to have found a team of strong-minded individuals who are amazing at what they do. Together, we have completed numerous construction, landscape development, and layout development projects. The fact that I have built not just an efficient team, but a family, fills me with a sense of pride.

WHO WE ARE

We are a team of architects, construction experts, interior and landscape designers who take care of end-to-end services of a project. The idea of Jaycon Group Infra is to have experts and top-notch professionals in each vertical collaborate to make the most efficient and beautiful spaces.

Jaycon Group Infra's specialty lies in our end-to-end services. We are present throughout with a client from ideation, creation, development, and maintenance. What sets us apart, is not just our professional expertise, but the passion with which each team member works. One of our core values is to provide state-of-the-art quality in all our deliverables, which is why it is important for us to ensure the outcome in every stage of a project is perfect.

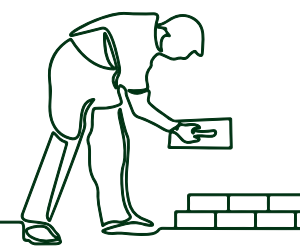

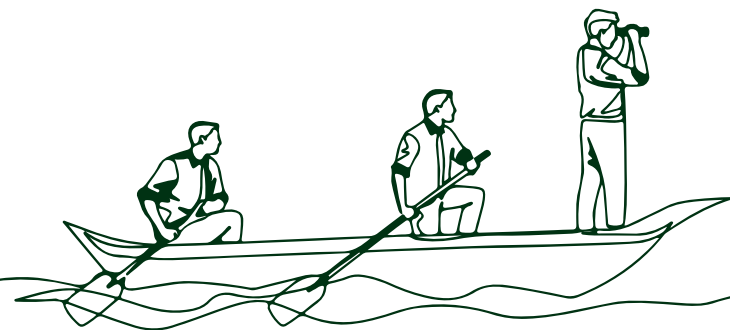

Equipped with a collective experience of over years, highly in-demand professionals from various fields and undying love for creation, Jaycon Group Infra has been the most trusted construction company over the years. Our portfolio speaks volumes for us, having completed a wide range of projects for both civil and government-related projects.

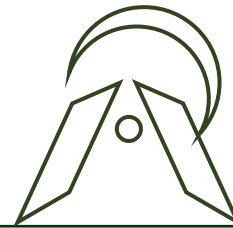

OUR JOURNEY

Jaycon Group Infra started with the vision of providing elegant living spaces that not just serve a purpose but elevate the very existence of our clientele. Since our inception in 2005, we have been one step closer to achieving this vision with every single project completed.

We have completed five major projects till date, with two more underway. Additionally, we have completed over 75 projects with a focus construction, landscape and interior development for clients spanning a wide range of industries. We continue to maintain cordial and seamless relationships with all our clients, who appreciate our work immensely.

2005

OUR COMPANY POLICY

- We adopt a consistent quality, added value approach in executing our projects.
- We operate in this way because we recognize that high quality construction practice and placemaking creates desirability and adds long-term value to new projects, communities and regeneration projects, whatever the economic situation.
- As a result of this, we are highly successful in achieving our objective quality consent & recognition for our development proposals to the partners and stakeholders.
- We work in partnership with numerous organizations and offer them a full range of partnering solutions that create bespoke solutions to their construction and development requirements.

OUR VISION

To consistently better the living standards of our clientele through high-quality deliveries, constant upskilling and employing cutting edge technology in all our ventures.

OUR MISSION

To grow as India's most trusted construction company, by virtue of our quality and responsibility that our clients entrust upon us.
